Principal Investigator Microgravity Services Project Scientist

SUBJECT : Third Microgravity Environment Interpretation Tutorial

You are invited to participate in the third annual Microgravity Environment Interpretation Tutorial (MEIT) sponsored by the Principal Investigator Microgravity Services (PIMS) project. The training course will be held December 7-9, 1999 at DYNACS in Brook Park, Ohio. Dynacs is near by the NASA Glenn Research Center

This short course is geared towards Project scientists and principal investigators to help them better understand the microgravity environment their experiments will be exposed to and how to quantify and analyze the impact of such environment on their experiments.

Since seating is limited, priority will be given to project scientists and principal investigators whose experiments are scheduled for flight within the next three years. All the selectees will be notified by November 17, 1999. The deadline for registration is November 15, 1999. There are no registration fees for this training. However, all costs associated with travel, lodging and any miscellaneous expenses are the sole responsibility of the attendees. All training material will be provided free of charge.

For registration send email to pims@grc.nasa.gov or for on-line registration go to: <http://www.lerc.nasa.gov/WWW/MMAP/PIMS/MEIT/meit99.html>. By fax (see registration form): attention: Kenol Jules, 216-433-8660.

I'm looking forward to hear from you all, either on-line or via email. For further information, I can be reached at 216-977-7016.
